Chapter 13 Social Movements

Introduction

Where a group of people come together in order to bring about change in society in regard to certain social issues with the aim of changing people's perspectives about that aspect.

Chapter 13 Social Movements

Dissent (dissatisfaction)

Protest (where it comes out openly) + Social Movement
(may or may not lead).

Dissent is a form of dissatisfaction that people feel about a certain issue and when it comes out openly it is in the form of a protest.

Chapter 13 Social Movements

During colonial rule

There were many social reformers who wanted to change the life of the depressed class and few social evils.

Now social movements are present today also but the issues have changed.

They have become global and have a difference there e.g, environment, domestic violence etc.

Chapter 13 Social Movements

Features of Social Movement

- Requires sustained collective action over time. Such action is often directed against the state and takes the form of demanding changes in state policy or practice,
- Collective action must be marked by some degree of organisation. This organisation may include a leadership and a structure that defines how members relate to each other, make decisions and carry them out.

Chapter 13 Social Movements

Features of Social Movement

Those participating in a social movement also have shared objectives and ideologies. A social movement has a general orientation or way of approaching to bring about (or to prevent) change.

These defining features are not constant. They may change over the course of a social movement's life.

Chapter 13 Social Movements

Features of Social Movement

Social movements cannot change society easily. Since it goes against both entrenched interests and values, there is bound to be opposition and resistance. But over a period of time changes do take place.

Chapter 13 Social Movements

Counter Movement

Counter movements sometimes arise in defence of status quo. There are many instances of counter movements.

- When Raja Rammohun Roy campaigned against sati and formed the Brahmo Samaj, defenders of sati formed Dharma Sabha and petitioned the British not to legislate against sati.

When reformers demanded education for girls, many protested that this would be disastrous for society,

Chapter 13 Social Movements

Counter Movement

When reformers campaigned for widow remarriage, they were socially boycotted. When the so called 'lower caste' children enrolled in schools, some so called 'upper caste' children were withdrawn from the schools by their families.

- Proposals for extending reservation in educational institutions have led to counter movements opposing them.

Chapter 13 Social Movements

Acts of social movement

- While protest is the most visible form of collective action, a social movement also acts in other, equally important, ways.
- Social movement activists hold meetings to mobilise people around the issues that concern them. Such activities help shared understanding, and also prepare for a feeling of agreement or consensus about how to pursue the collective agenda.

Chapter 13 Social Movements

Acts of social movement

Social movements also chart out campaigns that include lobbying with the government, media and other important makers of public opinion.

Social movements also develop distinct modes of protest. This could be candle and torch light processions, use of black cloth, street theatres, songs, poetry.

Gandhi adopted novel ways such as ahimsa, satyagraha and his use of the charkha in the freedom movement.

Chapter 13 Social Movements

Limitations

- According to Sociologists people can create resources. They don't have to mobilise them. A social movement need not depend on existing resources, new identities, new resources etc are created.
